

ABBYY FlexiCapture Advanced – 3-Day Training

ABBYY FlexiCapture 12 including ABBYY FlexiLayout Studio 12

ABBYY trainings include a combination of theoretical components and practical tasks. The FlexiCapture Advanced course is 12 hours long. One must complete the basic course before taking the advanced course. This course focuses on advanced topics in FlexiLayout studio.

Pre-Requisites You must complete FlexiCapture Basic training before attending this course.

Audience System administrators, consultants and developers specializing in data capture and document processing.

Course Goals The attendees learn advanced features of ABBYY FlexiCapture and ABBYY FlexiLayout Studio functionality. Upon completion, participants should be able to:

- create repeating groups, FlexiLayouts with layout alternatives, document sets, and classifiers
- use FlexiLayout language to enhance recognition capabilities, combine search areas, programmatically expand search areas, perform conditional operations, etc.

Course Format Time period: 3-day workshop (4 hours per day)
Language: English
Format: Instructor-led training with hands-on exercises and tasks

Equipment Required for Course Participation Participants should bring the following equipment in order to participate in the training:

- Laptop computer with a dual-core CPU
- Internet connection and internet browser
- Head-set
- USB port
- Computer mouse
- Printer (optional)

Schedule Information The times listed are general approximations and are subject to change depending on the instructor and the type and/or number of questions asked in each module. Each training day will include two morning breaks.

Agenda

DAY 1

- Welcome Participants
- FlexiLayout Studio Overview and Recap
- Advanced Relations Methods
- Repeating Group demo
- Handling Repeating Data Structures

DAY 2

- FlexiLayout Language (FLL) Overview
- Manipulating Pre and Post Search processing behavior
 - PreSearch FLL
 - PostSearch FLL
- Hypotheses
- FLL Block Expression
- Advanced Classification Techniques
 - Working with Alternative Layouts
 - Working with Classification Projects

DAY 3

- Advanced Workflow
- SLA Setup
- Document Sets
- Mobile Client
