

FlexiCapture Advanced 4-day course

The FlexiCapture Advanced course focuses on advanced topics in FlexiLayout Studio, advanced Classification, and NLP technology in FlexiCapture. This ABBYY training course includes a combination of theoretical components and practical tasks. This course is 16 hours long.

Prerequisites We strongly recommend that you complete FlexiCapture Basic training before attending this course.

Course Goals The attendees learn advanced features of ABBYY FlexiCapture and ABBYY FlexiLayout Studio functionality. Upon completion, participants should be able to:

- Create FlexiLayout repeating groups, FlexiLayouts with layout alternatives, document sets, and classifiers
- Use FlexiLayout Language to enhance recognition capabilities, combine search areas, programmatically expand search areas and perform conditional operations
- Use NLP to extract content from unstructured documents
- Use utility tools to migrate whole projects, training batches, and other settings between system environments

Course Format Instructor-led training with hands-on exercises and tasks.
Language: English

Equipment required for course participation Participants should bring the following equipment in order to participate in the training:

- Laptop computer with a dual-core CPU
- Internet connection and internet browser
- Head-set
- USB port
- Computer mouse
- Printer (optional)

Schedule information Time period: 4-day workshop (4 hours per day). The times listed are general approximations and are subject to change depending on the instructor and the type and/or number of questions asked in each module. Each training day will include two breaks.

Agenda

DAY 1

- Welcome Participants
- FlexiLayout Studio Overview and Recap
- Advanced Relations Methods
- Handling Repeating Data Structures
- FlexiLayout Alternatives

DAY 2

- Workflow Schemas and Custom Roles
- FlexiLayout Language (FLL) Overview
- Manipulating Pre and Post-search processing behavior
 - Pre-search FLL
 - Post-search FLL
- Hypotheses

DAY 3

- FLL Block Expressions
- FlexiCapture Administration Tools
- Document Sets

DAY 4

- Advanced Classification in FlexiCapture
- NLP in FlexiCapture
- Additional Materials
