ABBYY Products
AI solutions that give time and money back to your business

Who is ABBYY?
ABBYY is a leading global provider of Intelligent Process Automation (IPA) solutions.

Global reach
ABBYY has a worldwide presence with headquarters in the United States and offices in 15 countries.

Recognized by leading analyst firms
ABBYY was named a Leader in NelsonHall’s 2021 Process Discovery & Mining NEAT Matrix, and the number one Intelligent Document Processing (IDP) provider by three independent analyst firms.

Technology leadership
Extensive technological leadership in Intelligent Process Automation with more than 400 patents and patent applications.
ABBYY Vantage
Revolutionizing Intelligent Document Processing

ABBYY Vantage applies artificial intelligence (AI) to understand your documents in a fast and simple way.

Using pre-built document skills, Vantage enables straight-through document processing by making human-like decisions about documents, regardless of their structure, size, or complexity.

The ABBYY Marketplace holds a library of Vantage document, process, and classification skills for Financial Services, Transportation & Logistics, Insurance, Finance & Accounting, and more—with new skills being added every week by ABBYY and our partner network. Simply show us your document, select the recommended skill for processing, and use it where it makes sense with your business platforms—RPA, BPM, IA, ECM. Vantage is no code, providing citizen developers and enterprises the ability to accelerate digital transformation projects quickly and intelligently.

Vantage is built on the most widely used advanced data capture and natural language processing (NLP) technology in the world, incorporating AI and the next generation of machine learning.

Enterprises use ABBYY Vantage to...

- Automate up to 95% of document processing, reducing repetitive work and eliminating human error
- Increase throughput by up to five times for invoices, purchase orders, and finance-related documents
- Reduce document processing time by 50% or more
- Process thousands of pages per day containing complex fields with up to 99% accuracy
- Save millions of dollars and deliver a superior customer experience

Top features:

- Low-code / no-code platform built for the citizen developer—drag, drop, and deploy
- Online digital marketplace provides users with access to a catalog of skills and other technology assets to get started
- Includes core cognitive skills to provide the foundation for processing any kind of document
- Measures and analyzes performance of deployed skills
- Out-of-the-box integration with all leading RPA vendors
- Continuous learning to improve skill accuracy
ABBYY Timeline

Discover the truth about your process flow and performance

ABBYY Timeline is a cloud-based, AI-driven process mining platform featuring advanced process discovery, analysis, monitoring, and task mining.

It uses the latest AI to enable enterprises to automatically build an interactive digital twin of business processes, revealing inefficiencies and process bottlenecks. With this insight, they can apply automation where it will have the greatest impact and predict future outcomes.

ABBYY Timeline is used by enterprises in many different industries, maximizing the wealth of data contained in enterprise systems to help discover patterns and insights that illuminate paths to better customer experience and new efficiencies.

Enterprises use ABBYY Timeline to...

- Save millions of dollars in manual process analysis while drastically reducing costs associated with compliance risks
- Reduce time to identify opportunities for automation by 50%
- Achieve 85% faster reporting and production planning time
- Reduce cycle time by 30% with process redesign

**Top features:**

- Includes 25+ pre-built process analysis modules, including case analysis, process query, and workflow-journey mapping
- Uses task mining and desktop recording to help connect people, processes, and content
- Accessible in the cloud 24/7/365
- Tailored for the business user with no specialized knowledge required
The power of collaboration

Together, with our extensive partner network, we help enterprises and organizations gain a comprehensive understanding of their business processes and the content that fuels them.

ABBYY is a leading provider of Intelligent Document Processing technology in the robotic process automation (RPA) and wider Intelligent Process Automation market through strategic partnerships and embedded technology licensing with leading vendors. ABBYY provides solutions and service to one-third of the Forbes 100 companies who are actively deploying RPA. Learn more

Known for our expertise

ABBYY is trusted by 5,000+ customers, including many of the Fortune 500. We have over 30 years of expertise in the market, serving customers in Financial Services, Insurance, Transportation & Logistics, Healthcare, Government, Legal, and more.

Trusted by the world’s leading enterprises
